COMMUNITY NEWS:

Council and partners are preparing a strategy to guide investment in community facilities over the next 20+ years. The strategy will deal with how to get the right facilities in the right places at the right price. It is key that Council understands what our community needs for recreation. So they are surveying the community on what their individual needs are for recreation. This will go with a range of other sources from clubs and codes on usage and many other data sources. However the survey is important as it catches some recreational activities that may fall through the cracks and gives people in our community a chance to contribute. Below is a link that will take you to the survey online and one that can be copied to take people directly to the survey:

If you have difficulties accessing it, you can download hardcopies from the Council website-
